Engineering Apprenticeship

Sky have opened their applications for their Home Service Apprenticeship Programme. You complete a mixture of e-learning modules and hands-on experiences while being mentored by an experienced colleague. After the two year apprenticeship programme (which comes with a competitive salary) you may be offered a permanent role.

Sutton Trust Summer School

This year, the St Andrews Virtual Sutton Trust Summer School will take place from Monday 5 to Friday 9 July 2021. This virtual event is free of charge and held each year in order to give pupils the chance to experience a week in the life of a university student. They will engage with two academic areas of interest, take part in social activities and receive advice on UCAS related topics. If you are interested there will be a virtual Q&A this Thursday. Email for more details!

Meet the Medic

This is a fantastic opportunity for anyone in S5 who intends to apply to medical school in October 2021 who has not had the opportunity to shadow doctors face-to-face or to speak directly to doctors about the career. In order to successfully apply for medicine you need as much experience as possible! Candidates will be placed in small groups and will have the opportunity to speak to several pairs of doctors from a number of specialties and also medical students from the Scottish medical schools throughout the evening. Email for more info!

Law

There is now another fantastic opportunity to gain work experience in law! Browne Jacobson are a top 50 law firm with offices all over the UK and are offering a two day work experience opportunity during the Easter Holidays. If you are thinking of applying/have applied to do law, work experience is vital and hard to come by! The registration process is quick and simple. This is open to all S4-6 pupils who would like to learn more about this career pathway and gain experience which could feature on a personal statement!

Apprenticeships

Remember to head to the Apprenticeship.Scot website to find this week's recently released apprenticeship applications!
