Developing the
Young Workforce

DYW

Developing the Young Workforce (DYW) was a **seven-year Government programme** that aimed to **better prepare young people for the world of work** and **reduce youth unemployment** by 40%.

Some of the ways to achieve this aim are:

- Developing young people's **learning about the world of work**
- Developing young people's **metaskills**
- Working collaboratively with a range of **partners** (SDS, employers, colleges, universities and training providers) to support young people when planning their future pathways
- Embedding meaningful **employer involvement**
- Providing access to **vocational options** in the senior phase
- Providing opportunities for **wider achievement and accreditation**
- Improving opportunities for all learners to **develop career management skills**

As Principal Teacher of Developing the Young Workforce, my role is to **promote and support career education** across the school, to ensure that our young people can make informed decisions about their next steps and to make them aware that there is **No Wrong Door**.

- **Universal support** - e.g. finding work placements, arranging volunteering opportunities, finding and applying for apprenticeships.
- **Targeted support** - delivering tutorials e.g. CV Building, Interview Skills, Applying for a Job, support with writing college personal statements etc.

DYW Opportunities

DYW opportunities are communicated regularly to our young people to help support their future career choices:

- DYW Weekly Bulletin
- Satchel noticeboard
- Assembly
- S5/6 Teams page
